TREATMENT OF THE MONTH

BBL (BROADBAND LIGHT) SKIN REJUVENATION

BBL (BroadBand Light) is one of the most powerful skin rejuvenation treatments for improving **anti-aging, pigmentation, redness, and overall skin clarity**. Using light energy, BBL **targets discoloration, browns/pigmentation** below the surface to restore youthful, radiant, and even-toned skin – perfect for brighter holiday photos and glowing confidence.

What BBL Helps With:

- Sun damage + dark spots
- Redness + broken capillaries
- Acne and post-acne pigmentation
- Uneven tone or dullness
- Fine lines and texture (when done in a series)

NBMS TIP: WHY DECEMBER IS THE BEST TIME FOR BBL?
COOLER MONTHS MEAN LESS SUN EXPOSURE – MAKING IT THE IDEAL SEASON FOR
SAFE, EFFECTIVE PIGMENT CORRECTION AND SKIN RENEWAL.

ASK OUR ESTI:

Q: How do we protect/hydrate our skin during the winter season?

A: You should always make to sure use a great serum and moisturizer to treat/hydrate the skin. If you're looking for an easy, on-the-go product that has both a serum and moisturizer, we suggest TNS by SkinMedica. It is a perfect blend of a growth factor serum and hydrating moisturizer. Also, stay hydrated from within. We have IV boosters that can help! If that's not enough, we carry Hydrate Luxe, a great overnight mask for a healthy glow from the Obagi line. #thirsty
